Murat Halstead's Chances for a Foreign Appointment.

RUSSIA POSSIBLY OPEN, BUT GER-MANY SHUT TO HIM.

enators Teller, Evarts and Ingalls Said to Have a Grudge Against Him - The Steamer Yantic Now Free From Yellow Fever - Wolfley Endorsed By Arizona Republicans-Notes.

CINCINNATI, March 22.—The Evening Post prints the following:

"It is reported by a gentleman who has talked with President Harrison that Murat Halstead will not be made minister to Germany, but that he can go to Russia if be so desires. It is also said that should Mr. Halstead be named for either place there would be bitter opposition to his confirmation, and there would be danger of rejection.

"Senators Teller, Evarts and Ingalls can hardly forget the terrible attacks Halstead made upon them for voting against the proposed investigation of Senator Payne's election to the senate. The Cleveland senator could easily get the Democrats to vote against Halstead's nomination, and this, with the votes of two Republican senators, would be enough.

A DESPERADO'S DYNAMITE.

As Villianous a Piece of Work as You Ever Read About.

CHATTANOOGA, 1enn., March 22.-Jim Cooley, a desperado, wildly known in Roane county, went to the residence of Mack Brown late Monday night and called for Brown, with whom he had a quarrel of long standing.

Brown, certain of being shot should he appear at the door, refused to come out, and Cooley, after waiting a few minutes, threw several dynamite cartridges on the roof, from which they rolled to the ground, exploding with such violence as to almost demolish the house and severely injure Mrs. Brown. Cooley was arrested Wednesday, but swore he would kill anyone who would testify against him.

He was taken before a magistrate and drew a pistol on the first witness called. Before he could fire, however, the sheriff shot him in the head without inflicting a serious wound. He was found guilty, gave a straw bail and has fled to North Carolina. A reward is offered for his recapture.

Syracuse Brewing Trust a Failure. SYRACUSE, N. Y., March 22 .- If there is to be a beer trust in Syracuse it will be under different auspices than those that have been so much talked of throughout the country during the last three months.

The millions of money from England and New York that were to furnish the Syracuse Brewing and Malting company with big capitals have failed to materialize. Wednesday night the time allotted for the consummation of the scheme expired and the scheme itself expired.

A big brewer said Wednesday night that the proposed company was a failure. He had not the figures, but said that the subemployes of the agricultural department | scriptions to the company's securities in New York city had been disappointingly small. There is talk among the brewers of forming a company among themselves, and a meet ing will probably soon be held to take action in the matter.

English Blue Book on Samoa. LONDON, March 22. - A blue book on Samoa has just been issued by the government. It contains 356 dispatches, covering the period from April 29, 1885, to February 28, 1889, which prove that England through out the correspondence was in cordial accord with the United States, and that she declined to accede to Germany's request that England should assist and co-operate to restore order in Samoa until the government had learned the views of the American government. On January 29 last Lord Salisbury complained to Count Von Hatzfeld, the German embassador, of the language of Prince Bismarck's speech in the reichstag, asserting that England and Germany were hand in hand. Lord Salisbury added that the views of the two governments agreed in regard to the future government, of Samoa,

IS IMPOSSIBLE.

The Output and Sale Cannot Be Controlled, as It is Abundant in All Parts of the Country-Notwithstanding a Syndicate is Being Formed to Manufacture Salt on a Large Scale.

NEW YORK, March 22. - The news that a big salt trust is threatened does not seem to trouble the salt dealers in this city very much. Many of the dealers say that a trust cannot be formed, as it would be impossible for any body of capitalists to control the output and sale of the commodity, as it is so abundant in all parts of the country, and should a trust be formed it would not last long, as the profits would be small.

Notwithstanding the statements of the salt dealers, a syndicate is being formed in this city for the purpose of going into salt manufacturing on a big scale. The stockholders in the new syndicate say that it is not for the purpose of restricting the output and controlling the price of the article, but to improve its quality and to lower the price. They say, as the dealers say, that the country is too rich in the article to think that money could be made by restricting the

supply.
"It is not true a trust is being formed," said F. B. Thurber, who is one of the promoters of the scheme, in speaking to a re-porter on the subject. "We are simply forming an association of capitalists to purchase good salt works, and with improved machinery and with an improved process of manufacture we will turn out a better article at a much less price. We will have a capital of \$10,000,000 and I am sorry that, as this matter is not yet settled, I cannot give you the names of the principal men in the association.

"It is silly for any one to say that a sal trust can be formed. If, like copper, the supply was limited, the thing could be done, but in this country there are miles upon miles of salt, sufficient to last for untold centuries, and such a thing as controlling the production is preposterous."

THE BARRETT BOYS MUST HANG.

Governor Merriam Refuses to Listen to Pretty Addie Boyd's Appeal. St. Paul, Minn., March 22. - Pretty little Addie Boyd called at the governor's office at the capital Wednesday morning and tearfully pleaded with Private Secretary Elliott for an hour for an opportunity to present the case for her lover, Peter Barrett, directly to Governor Merriam. In this she was unsuccessful, as the governor had given orders to allow no one to see him in behalf of the Barrett boys, who are to hang on Friday, unless they brought some new evidence. Governor Merriam received an anony nous etter Tuesday afternoon, threatening his life if he did not commute the sentence of the Barrett boys. This has not affected the governor materially, and it is unofficially announced that the double hanging scheduled for Friday will take place as adver-

The Edison Syndicate Goes Under. NEW YORK, March 22.-The World says The great scheme of Henry Villard, whereby all the Edison electric companies were to be consolidated into one gigantic concern is reported to have collapsed. Various reasons are given for the failure of the scheme, but probably the true explanation is that the recent decision in Canada, annulling the Edison incandescent lamp pat ents there has led the advisers of the German members of the proposed syndicate to the conclusion that the Edison patents are not worth the money that is being asked for

TO BREAK THE IRON ORE MARKET.

Producers Awake to the New Chicage Steel Mill Combination's Scheme.

CLEVELAND, O., March 22.-The Iron Trade Review says: "The new Chicago steel mill combination is engaged in a scheme to break the iron ore market. The steel combination controls three or four mines. They have also thirteen furnaces which consume nearly a million tons of ore annually. Having secured from two of their own mines 500,000 tons of ore, they asked all other producers to bid against a price they put upon the ore. The other ore dealers were awake to the scheme and refused to sell. They intend establishing prices without regard to the Chicago deal."

LOUISVILLE, March 22. - Wednesday morning, while a large crowd of idlers were watching workmen tearing down the walls of the Mammoth Clothing company's building on Market street, near Fourth, the pavement just in front of the store gave way and twenty-five men went down with the stones and bricks. Max Braun, who lives on Portland avenue, had his leg crushed and his arm broken in several places. He will probably die. William Smith, of New York city, was seriously hurt about the head and neck. A young son of Col. T. C. Campbell, was thrown a complete somersault and fell on a mass of brick, cutting his face.

It is such changes as the above that are destined to make the South the industrial center of the country at no distant day.

WHAT will the Republican newspapers get at next? Some of them have become so contemptible that they are talking of the alleged "uncleanly condition of the White House when the Harrison's took possession of it," insinuating that Mrs. Cleveland was the party at fault. If they haven't anything better to discuss, they would show their good sense by keeping silent.

He knows he never would have carried Indiana and New York if boodle had been left out of the race.

Those who fail to go to the opera house to-morrow night will miss seeing one of the leading actors of this country. James O'Neill stands in the front rank, and "Monte Cristo" is his great play. He appeared at Louisville the first of this week, and the Courier-Journal says:

He has, in this play at least, long since pass acterization could be given in any respect, and so the only thing now to be written is a hearty reiteration of all the commendation hitherto bestowed upon him.

The supporting company is a good one, and, all the members of the cast may be comcedes, is a beautiful woman, of fine stage appearance, and though but seventeen years of age, displayed an undoubted talent for such about the Democratic office-seekers of roles. She deserves especial mention for her charming performance. Miss Kate Fletcher, the Calconte, must also be credited with an inte ligent piece of character work. The play is elegantly mounted, the scene of the escape from the Chateau d'If being considered especially fine-better, perhaps, than on any previous representation.

PESTH, March 22. - When Herr Von Tisza arrived at the lower house of the Hungarian diet Wednesday the large crowd that had gathered outside the building groaned and hissed at the prime minister, shouting "Get

out," "Resign." On leaving the chamber, Herr Von Tisza was hooted at and pelted with stones by a group of his opponents.

His carriage windows were smashed in. An attempt was made to stop the horses and animals and those who attempted to seize the reins. Dashing ahead at full speed he entstripped the rioters and extricated his master from the peril he was in. Herr Tisza was hit several times, but escaped with some trifling contusions.

Baron Spenyl, chief of the detective department, was injured with a stone. Two constables were unhorsed, and had their legs broken.

When the chamber adjourned a turbulent crowd had gathered outside. Herr Pulsky was violently hustled, and Herr Toers, who went to his assistance, received a severe blow on the head with a stick.
